'AirTanker Entertainment' network

3. Open your browser and visit www.blueboxinflight.com
or scan the QR code below

4. Plug in your headphones and select your choice
of entertainment

Frequently Asked Questions

1. What devices can I use to access AirTanker Entertainment?

AirTanker Entertainment can be accessed with most iOS, Android, Windows and OSX devices.

2. Why can't I see the AirTanker Entertainment network?

Try turning your Wi-Fi off and then back on again to refresh the list of available networks.

3. Which browsers can be used to access content on AirTanker Entertainment?

Supported browsers are Chrome (v75+) and Safari (v11.2+).

4. Why do I see this error message: "This version of Chrome is not supported. Please upgrade to the latest version from the Google Play store"?

The content you are trying to watch is protected and you need the latest version of Chrome v75+ to view this.

5. There is Wi-Fi onboard but I can't access the internet.

The Wi-Fi available is a captive wireless network within this aircraft and is for enjoying streamed content on your personal devices. There is no internet access on-board.
